

# Lash Lifting

## What is a Lash Lift?

A lash lift is a natural lash treatment designed to enhance your own lashes by lifting & curling them from the root.

This treatment creates the appearance of longer, fuller lashes without the need for extensions.

A lash tint is included to darken the lashes, creating a mascara-like effect.

## Benefits of Lash Lift;

- Enhances your natural lashes
- Creates a lifted & curled appearance
- Low-maintenance treatment
- No need for lash extensions or curlers
- Ideal for clients wanting a natural look

## How Long Does a Lash Lift Last?

Results typically last 6–8 weeks, depending on your natural lash growth cycle.

## Aftercare Advice

To ensure the best results for both treatments:

- Avoid getting lashes wet for the first 24 hours
- Avoid steam, saunas & oil-based products around the eyes
- Brush lashes daily with a lash comb or clean mascara wand
- Avoid rubbing or pulling the lashes

Following the correct aftercare will help maintain your lashes and offer greater longevity.
