

Eyelash Extensions

What are Eyelash Extensions?

At KG Beauty Salon in Whiteparish, near Salisbury, we offer professional eyelash extension treatments designed to enhance your natural lashes & create a fuller, more defined lash look.

Using high-quality products from KG Lash Supplies, each bespoke set of eyelash extensions is carefully applied to achieve beautiful, long-lasting results.

Eyelash extensions are individually attached to your natural lashes, creating added length, volume & definition without the need for mascara.

Every lash set is customised to suit your eye shape, natural lashes & personal style, whether you prefer a soft natural look or a more glamorous finish.

Types of Eyelash Extensions

Classic Lashes

Classic lashes involve applying one extension to each natural lash, creating a natural & elegant look with added length & definition.

Hybrid Lashes

Hybrid lashes combine classic & pre-made volume lash techniques to create a fuller, textured lash look while still maintaining a natural appearance.

Volume Lashes

Volume lashes use lightweight eyelash extensions applied using small handmade fans to create a fuller & more dramatic look while remaining comfortable & super lightweight.

YY & W lashes

YY & W lashes are a pre-made fan designed to create volume & texture without the weight. Applied to isolated individual natural lashes. They both have a long flat base offering a larger bonding area to increase lash retention & longevity.

They create a criss-cross appearance, giving a lovely depth of colour, & they come in various thicknesses, so they can be very natural or more dramatic.

Benefits of Eyelash Extensions

- Enhance the appearance of your natural lashes
- Create fuller, longer-looking lashes
- Reduce the need for daily mascara
- Customised to suit your eye shape & style
- Long-lasting results with regular infills (recommended 14-16 days)

How Long Do Eyelash Extensions Last?

Eyelash extensions typically last 14-16 days before infills are recommended, depending on your natural lash cycle & aftercare.

To maintain full lashes, infill appointments are recommended every 14-16 days.
