

Professional Skincare at KG Beauty Salon

Thalgo Marine Skincare

Thalgo is a professional French skincare brand inspired by the powerful minerals & nutrients found in the sea.

Its products use marine ingredients such as algae, seaweed & ocean minerals to revitalise, hydrate & restore the skin.

These marine active ingredients help nourish the skin while supporting its natural balance & health.

Benefits of Thalgo Skincare & the iBEAUTY PRO facial machine:

Sound Vibrations – High frequency to cleanse & remove impurities

Sequential Ultrasound – Targets wrinkles & pushes hydrating serums into the skin, to improve hydration

Tripolar Radiofrequency – Focuses on lifting & firming the skin, restoring the plumpness lost due to skin damage or ageing

- Deeply hydrates & nourishes the skin
- Replenishes essential minerals
- Improves skin tone & texture
- Helps reduce signs of ageing
- Restores skin radiance & vitality

Thalgo facial treatments combine professional skincare with relaxing massage techniques to improve circulation, relieve tension & promote healthy, glowing skin.

Personalised Skincare Treatments

At KG Beauty Salon, skincare treatments are carefully tailored to your skin type & concerns.

Whether your goal is to improve hydration, reduce signs of ageing or restore a healthy glow, our professional skincare treatments can help support your skin's long-term health.

Our advanced skincare brands allow us to create personalised treatments that deliver both relaxing & results-driven facial experiences.
